

Dear Sir/Madam,

Please accept my enclosed CV for your kind perusal showing my interest to work in your company as a Software Engineer.

I am a B.Tech graduate, having 5+ years of experience in software development and maintenance projects. I have experience as a Software Engineer and as a Full stack developer and worked in all project phases including analysis, development, maintenance, testing and documentation. I have experience in web development technologies such as Python/Django, Ruby on Rails, HTML, CSS, JavaScript, NodeJS etc and also desktop application development technologies like Python, C++ and VC++/MFC. I have also worked in Kafka, Redis, AWS and Java.

I am always willing to learn new technologies.

I am confident that my work experience would meet your needs and significantly contribute to the success of your organisation.
